1/10/18

Dear public records officer,

I request the following records under the Vermont Public Records Law:

A database of all payroll records for the Vermont Attorney General's Office – Public Protection Division Civil Rights Unit. I would like the data to range from the first payroll of 2000 through the most recent payroll.

I am seeking all information stored in the database including but not limited to:

- Unique ID assigned to employee
- Employee name
- Employee title
- Employee office
- Employee division
- Employee hire date
- Last date of employee
- Compensation received (broken down by regular pay, overtime pay, special pay, etc.)

I prefer to receive records electronically as spreadsheets or text files that can be imported into spreadsheet or database management software. Please also provide any relevant data dictionaries or other documentation describing the data.

If there will be fees greater than \$25, please inform me before you fill the request. The Center for Public Integrity is a non-profit media organization.

I understand the database may not contain all of this information. Furthermore, I understand some of this information may be exempted from disclosure. If any of this information is exempted from disclosure, please let me know what the exemption is and release all other information sought.

Thank you for your attention to this request.

Sincerely,
Joe Yerardi
